Co. Cork.

REGISTERED
27 JUN 1916

each letter containing two £1 Treasury notes (total £4)
also a pay note made payable, by Captain Whincop
of R. Largo M.B.A.

These letters have never reached their destination,
according to inquiries received from parties concerned,
then I sent an application to Postmaster General, with
respect to them, & received a reply on the 27th May

stating that the letters could not be traced

+ that: further enquiry would be made.

I have had no further information concerning them, but have had letters since, from the parties to whom they belonged, stating they have never received them yet.

Sir, I quite understand the Postal Authorities are not held responsible for monies in any shape or form which are not registered in proper registration envelopes,

but under the circumstances then existing, I should be pleased to know, if it is at all possible to recover the amount lost.

Trusting you will kindly favour an early reply.

I remain Dear Sir

Yours sincerely

W. R. Stout
