I went into this matter very carefully with Claimant and obtained receipted accounts and various details from him. I also called on his Solicitor, and after visitation of the houses claimed for - one hundred and eight in all - saw the Contractor. The repairs in practically all the cases had been carried out, but some of these repairs were admitted by the Contractor and some of the tenants as not being consequent on the Rebellion, and after considering fair deductions the amount of £144. 10. 0. as assessed is I think fair.

With regard to 52 Lower Sackville Street, for which £25 was claimed, the actual damage was to the walls of the first floor of the building (Crowley & Bolger's, Solicitors, Offices) and the fifth floor occupied by the tenant, and the roof, which is entirely distinct from the De Bear Schools' Claim No. 5870. I thoroughly examined the whole of the building. The Plate Glass windows on the ground floor were insured by the tenant Wright, and the windows have been replaced. The amount has not been recovered from the Insurance Company yet, but the Rebellion Clause is not on their policy and the tenant has not doubt that he will be reimbursed. In some of the smaller claims for glass I have no doubt that all the damage was not the result of the Rebellion, but the items being small and it being difficult to obtain sufficient information to warrant reducing same, I have deemed it politic to allow them to stand.

I have satisfied myself in regard to Rates Notices and other evidences without the actual production of the deeds that Claimant is the proper person to make good the repairs.

Dear Mr. Judd,

Mr McDougald of the Property Losses Committee called here to-day in reference to your claim for compensation. He says that he will be obliged to report on all the cases submitted to him before the 30th inst and that no claims will be considered after that date. He suggests that you should call or phone him at No. 1 Dawson Street The North British Insurance Buildings (Telephone No. 1309) and arrange either that you will meet him yourself on Monday to go round the different houses with him or else that you will send some other person with him who can point out what damage was done and give him any further information he requires. He also wished to know if you have any receipts or estimates or other vouchers which would show how the amount claimed in each case is arrived at. I enclose an estimate received from Higgins re 11 Usher's Island. Perhaps you received <sup>similar</sup> estimates in the other cases. It may be that you have bills or receipts from Brooks Thomas or some firm of that description which would show in which houses the glass had to be <sup>renewed</sup> ~~re-instated~~ and

the costs of same. You probably have such a receipt in cases where shop fronts had to be reinstated as for instance No. 52 Lower Sackville Street and No. 12 Upper Ormond Quay. Possibly in the other cases where the claim is for glass broken you may have got the necessary work done by some small contractors or handy men who furnished no accounts. You ought however have ready for McDougald all vouchers in your possession either for reinstating plate glass windows, repairs to roofs or walls etc. You can understand of course that the Committee will require some proof that the damage was done and what was the cost of repairing that damage before they can pay any compensation in respect of it.

The Committee also point out that no evidence has been given to them as to whether the following premises are insured or not:-

Avondale House Phibsboro

Nos. 73, 74, 75 & 76 Lower Gloucester St.

Possibly none of these premises were insured by you as the tenants may hold Leases or Agreements under which they are bound to insure. If this be so we must give the Committee some evidence of it. I enquired from the Commercial Union, the Northern and the Royal Exchange Companies but none of them have any trace of Policies of any of the above premises. Have you any idea with what Companies they are insured, if they are insured at all? I presume your cheque book would show to whom the <sup>premiums</sup> ~~primes~~ were paid. I did not act for you in the purchase of any of these particular premises and I have not got any of the Deeds relating to them here. The Policies of Insurance are generally to be found with the Title Deeds.

Dear Mr. Judd,

The Property Losses Committee rang up to-day and asked that you or your builder or some other person acquainted with the various premises in respect of which a claim for compensation has been made would arrange to go ~~for~~ over the different houses with the Committee's Assessor so as to point out to him exactly what damage was done in each house. It would of course also facilitate them if you had a bill from the Contractor who carried out the repairs if these repairs have been completed. If the repairs have not yet been effected perhaps you have an estimate which would show exactly what has to be done. You might let me know as soon as possible who would meet the Assessor and when as he states he wants if possible to get your claim dealt with this week.

In reference to the claims of Mr. M. F. Judd you asked me to forward you the Policy of Insurance . The claim is made in respect of glass broken, roofs, walls, chimneys etc. injured in over one hundred houses and cottages . All these premises are insured under separate policies and it would entail a very considerable amount of trouble in hunting them all up . I would suggest it might suit your purpose equally well and save you an immense amount of trouble if I forwarded you two or three of these policies and obtained for you a letter from the Insurance Company giving in the case of all the other premises the Number of the Policy, particulars of the premises covered by same the amount of the Insurance and the yearly premium in each case and if necessary a certificate from the Insurance Company that these premiums
