re Claim No. 5793 - Donnelly.

Dear Sir,

In reply to your letter of the 26th instant I beg to state that this claim was very fully and carefully investigated and the sum awarded is the maximum payable under the terms of reference. This sum, as matters stand, does not represent replacement value.

Yours faithfully,

Re/ Claim No. 5793 - DONNELL

Dear Sir,

The Under Secretary has notified my clients that a grant of £2285 has been approved ~~for~~ for payment in this case, this award also covering a claim in respect of the same premises by Messrs J.G. Mooney & Co. I have since seen my clients who are much surprised that there should be such a substantial difference between the amount of the claim and the amount of the grant. They inform me that the figure claimed by them was arrived at after very careful consideration with their Quantity Surveyor, Mr. T.F. Slevin, a gentleman of considerable experience, and who had gone into the claim in detail. He has advised them that buildings equal to those which have been destroyed could not be erected upon the site for the sum awarded and that no building erected at such an expenditure would be likely to satisfy the requirements of the Corporation. Mr. Slevin thinks the gentleman who dealt with the claim must have been under some

misapprehension as to some items and he would be anxious to be afforded an opportunity of discussing the claim with this party and explain how he arrives at his figures.

I should be glad therefore if an appointment could be made with Mr. Slevin for an early date. I understood that it was the intention of the Government, when they decided to compensate the owners of destroyed property, to award them such sums as would place them in as good a position as they stood before the Rebellion and this being so I presume the Committee will be willing to re-open the matter.

Yours faithfully,

Dear Sir,

In reply to your letter of the 16th instant I beg to state that this claim was very carefully and thoroughly investigated before an award was made, and as no good object would be gained by re-opening the matter, the Committee regret that they cannot do so.

Yours faithfully,

Dear Sir,

re Claim P. Donnelly, 14, Lr. Sackville St.

The above called on me to-day with his quantity surveyor Mr. Slevin and they informed me that they have made a claim in respect of the above building amounting to £3,484. and that the amount awarded is £2,285. Mr. Slevin states that although he furnished Bills of Quantities etc. he has had no opportunity of meeting the Assessor, and he is most anxious to be allowed to discuss the claim with him and explain how he arrived at the figures as there is such a great difference between the amount claimed and the amount awarded.

I shall be glad if your Committee will allow this case to be reopened so that the claimant may have an opportunity of proving his claim in the usual way.

Yours faithfully,

*Robert Kidney*  
Secretary.
