Do. Buildings

You may ignore, I think, the certificate by Murphy, who has not been able to satisfy me as to the price of the machine. In fact neither has the claimant so I suggest you assume the machine cost £8:19:6d. Claimant on being pressed reduced claim to £8:0:0d, but the sum estimated should I think meet the case. See attached price list.

"The World's Best" Cycles are made

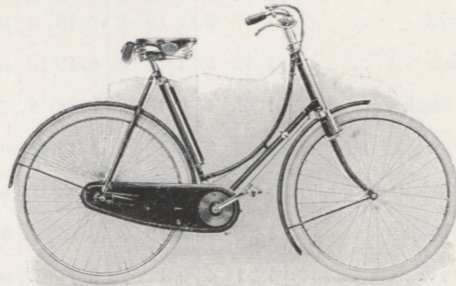

AS will be seen from the particulars given with the above illustrations, The Swift Cycle Co., Ltd. (with which is incorporated the Coventry Machinists'), were established in 1859, more than half-a-century ago. In these works the first English bicycle was made, and a start given to what has since grown to be one of the most extensive of industries. Although the fact that we made the first bicycle may not be of much importance to-day, readers will agree that it is merit, and merit alone, which could enable us to maintain the lead during the whole of the fifty years.
