This claim, which
appears reasonable in amount,
is recommended for favourable
consideration.

The claimant was
so seriously injured by
gunshot wounds that he
has had to be retired

be glad if this loss could

Inquiry should
be made at the
Infirmary as to
whether any clothing
belonging to the
Police treated there
was burnt.

If none was
burnt, possibly
some of the other
men have got
Serg^t Scully's clothing
and this should be
cleared up.

I beg to report that I have seen Mrs Timmon
Matron at County Infirmary. She produced
two outside cotton shirts, two inside vests;
(one cotton; the other a coarse wool.) & one
pair of woollen drawers. all of these garments
were very much worn. and evidently do
not belong to Sgt Scully, as they are all very
much inferior in quality to articles he claims
The Matron knows nothing whatever about the
articles claimed by the Sgt. ~~Dr. Holmes~~ Sgt 56475

I cannot submit
this claim without some
information showing how
the articles, (except the
drawers), were destroyed.

You were shot in both
legs, and this would
have caused the loss
of your drawers.

I beg to state that I had

those articles of underclothing on
me when I was wounded they
were taken off me in the hospital
& I have not seen them since only
for underclothing being brought in
to me when leaving hospital I would
have to buy them in navor other
wise I would have nothing to put on me

I believe what occurred was when the
underclothing was taken off the
wounded they were all thrown
together & all got saturated with
blood & were afterwards burned
The loss of them can be vouched by
Act. Se. Mulvihill Cons. Lecky Finan
or Cunningham. The razor which
was in the barerack & the bottom of
it was shot off & I believe they fell out
on the road what became of the barerack
I don't know a bullet passed
through the ankle right through the boot
and rendered it useless
